

SLICED ENERGY

100%
NATURAL ENERGY

Sliced is 100% natural drink with perfected flavour. You can enjoy it regardless of the hour. It has smooth yet powerful flavour that is enhanced by the berries of the nordic forest. It also contains some fruits from the tropical forests that have been imported with

minimal carbon footprint. The flavour takes you back to your happiest moments and it reminds the consumer that environment friendly products can be great too. Since our product only contains natural ingredients it is perfectly good for anyone to consume. For

this drink our passion was to create something that we could actually proudly introduce to the rest of the world. Join the team Sliced and experience the taste of nordic winter with slight hint of a tropical summer. Share your own thoughts with everyone at hashtag [#Sliced](#)

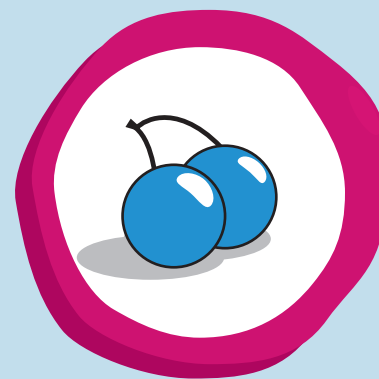

The Taste

Our drink has three main ingredients. Redberry, Blueberry and Lemon. Together they form a magical combination of flavour that really differs from the other drinks on the shelves. Here is some info from the trio.

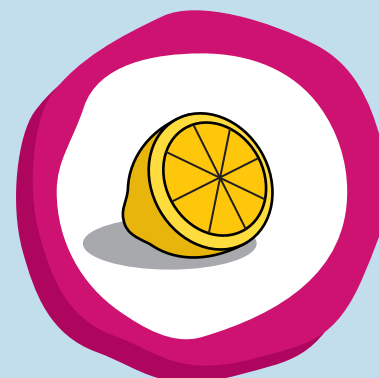

Redberry is the heart of the drink. It gives the liquid its signature colour and offers a bit of bitterness to the mix. It is the base ingredient which we use to mix the other ingredients in.

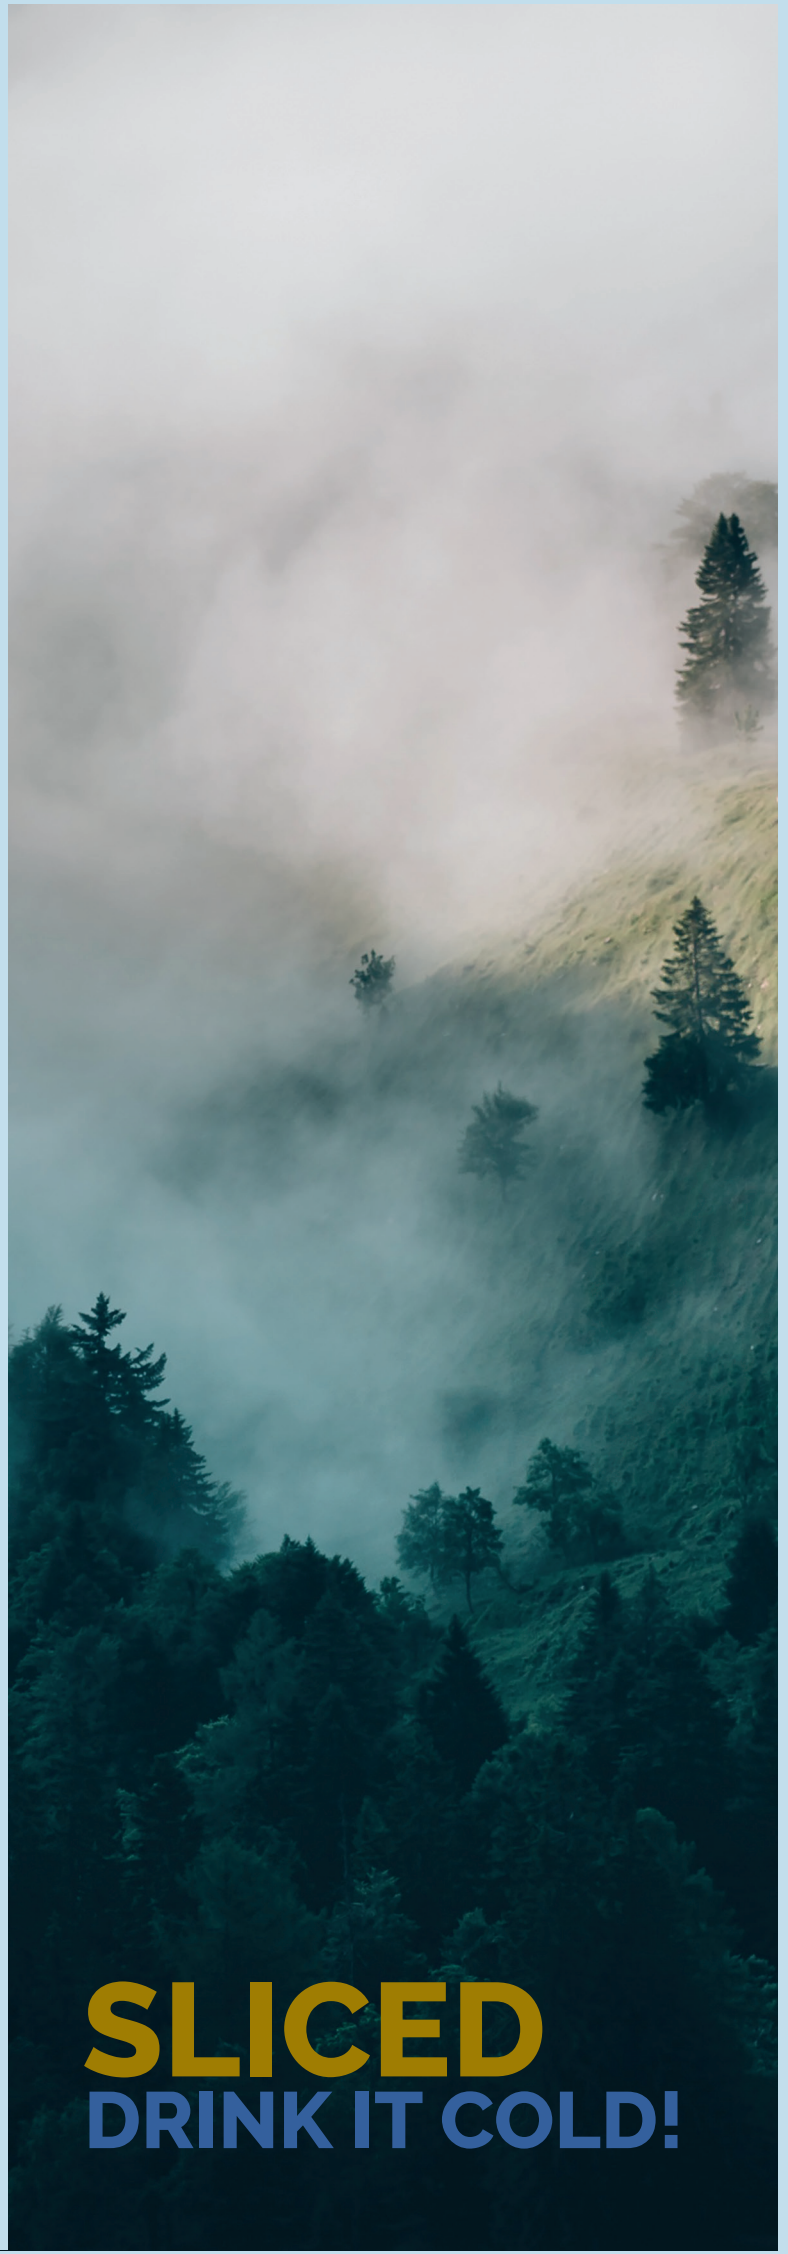

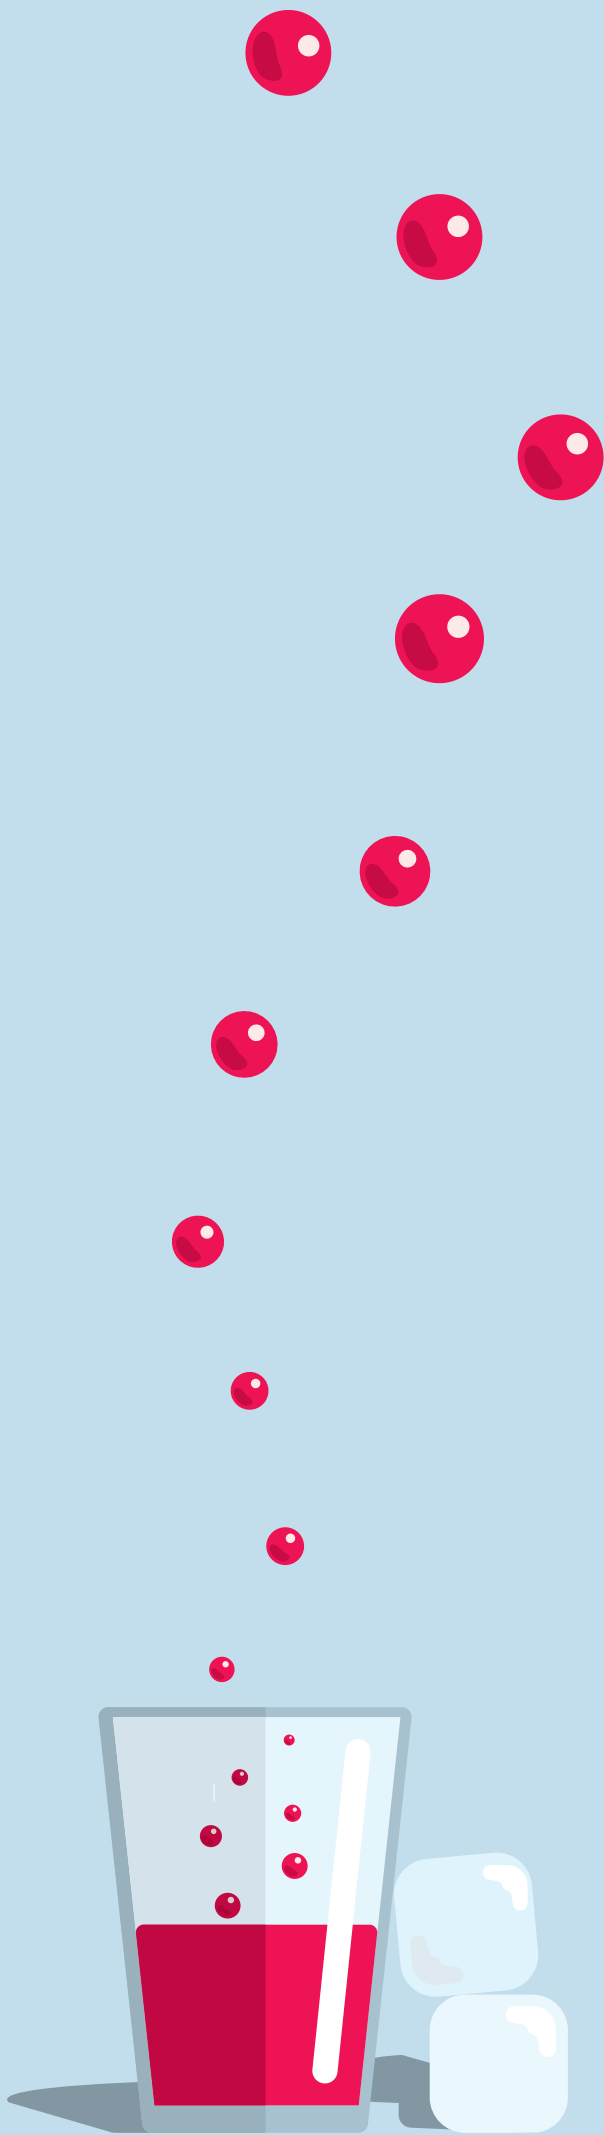

Blueberry is a bit milder yet still powerful enough to give the drink a nice aftertaste. Our blueberries come from Norwegian forests and are gathered by local workers with good pay.

Lemon gives the drink some kick and although there are two different sour elements in the drink they don't overpower each other. They actually go really well together and make a nice combination.
